Mobile| 0428 718 640

Fat /Eye muscle scanned—Roger Evans

**Guarantee:** All Riverina and NIOA Santa Gertrudis cattle are guaranteed breeders. To ensure the highest degree of confidence with regards to your purchases, all sale bulls are soundness evaluated, semen and morphology tested prior to sale to ensure we have taken every step to ensure your purchases are fit and ready to work. Any claim against the breeding ability of any animal should be made in writing and accompanied by a veterinary certificate within 6 months of sale. In the event of an animal failing to breed, it may be either replaced with an animal of comparable value or credit will be given to be used at the following sale or on a private sale animal.

**Vendor Rebate:** The vendors agree to pay 4% rebate to outside agents who introduce buyers in writing at least 24 hours prior to sale, accompany client to sale and settle all accounts in full no later than Monday 25th September 2023.

2% rebate to all agents who introduce buyers at least 24 hours prior to sale and settle in full all accounts no later than 25th September 2023.

Delivery of all sale cattle will be handled only through the delivery agent (Ray White) and no cattle to be loaded without approval of agents.

No bulls are to be mixed in yards prior to loading, with point of delivery being designated at the Talgai Homestead sale yard facility.

Settling Agent is Elders. All accounts to be settled with Elders and we ask that the Buyers instruction sheet at the back of the sale catalogue be completed and handed in at the completion of the sale.

NIOA and RL Pastoral Bulls have been vaccinated for/with:

- Botulism
- 7-1
- Pestigard
- Vibrio
- 3 day sickness
- Blooded for tick fever (including females)

Both herds are rated Johnnes JBAS –6.

**Online Bidding** - The sale will be interfaced by Auctions Plus. We encourage bidders to pre-register to ensure successful connection and approval to bid.

All lots will be photographed and videoed prior to sale and be able to be viewed on both sale platforms along with the web site pages for NIOA Pastoral and RL Pastoral.

**Buyer disclosure:** NIOA & RL Pastoral Company's are separate business entities.

## WORD OF WELCOME - ROB SINNAMON

It is with much pride and pleasure, that on behalf of the Nioa and Sinnamon families we again extend a very warm welcome to the 2023 NIOA RL Pastoral Sale.

To our valued clients (new and old), business associates, friends, and family; we present this year's offering of the best genetics on offer from both NIOA and Riverina Santa Gertrudis Studs. This year celebrates 50 years since I joined as a junior member of the Santa Gertrudis Breeders Australia Association. Riverina was subsequently registered in 1977.

This year marks the 34th Annual Santa Gertrudis Production Sale I have been responsible for conducting - 17 at Robenlea, 15 at Yulgilbar and now my second here with the NIOA RL Strategic partnership.

Much has changed over this time in terms of desired phenotype and market specifications of Beef Cattle, that the Australian Beef Industry and Globally now demands by the consumer! Maintaining Beef as a desired Food Protein source; now very much needs to remain a front and centre focus of attention for all producers.

As a seedstock producer, to maintain our "commercial relevance and industry focus", requires constant attention to what our clients require. Ongoing review of consumer trends is required to keep producing seedstock that will fulfill modern day market requirements, and to be at the forefront of what directional change is required to respond. We are proud of our past experiences in assisting us to respond as required to change. We are however excited even more about where the direction of our breeding programs are headed!

The Cattle business here in Australia has experienced "new" levels in terms of demand as the Australian Female herd rebuild has occurred since the 2019 drought. Record Cattle prices have enabled many to reinvest in property development and ongoing genetic improvement in their breeding herds.

## WORD OF WELCOME - ROB SINNAMON

Personal highlights were achieved last year with RL Pastoral selling at that time a “then” new Australian Record Price for a Santa Gertrudis bull; before NIOA also subsequently securing the Current record price sire (with RL as a shareholder).

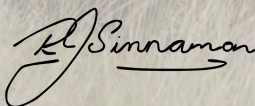

We were most humbled by the level of support extended to us at last year’s sale; and we are equally excited by the new genetic directional changes both studs have instigated in our quest to maintain market leading genetics into the future.

The Spring of 2023 will offer great value for money in terms of investing in new sires. Now is the time to take advantage of this opportunity, ensuring your bull batteries are complete and able to cope with the female rebuild that has occurred across much of Australia.

This year will see an increase in bulls offered to 63 bulls (53 Poll) and 10 Poll Stud heifers.

A total of 11 Sires are represented in the catalogue, again depicting a cross section of bloodlines not seen elsewhere in the one location. Presale inspections are always welcome!

Thank you again for your interest and we look forward to welcoming all on Monday 18th September to the NIOA RL Pastoral Sale at Talgai Homestead, Allora with the Auction commencing at 12 noon!

ROB SINNAMON

# RIVERINA SANTA GERTRUDIS - STUD 1070

*Owned and operated by RL Pastoral Company Pty Ltd.  
Stud #1070 was established in 1977 by Rob Sinnamon.*

Originally located on the Sinnamon family property at Harlin in South-East Queensland. Riverina was based on predominantly Robenlea bloodlines owned by Rob's parents-Ron and Lynley Sinnamon at that time. St Helena and Bolinda Vale females were also acquired in the early years. Riverina was run in conjunction with Robenlea until 1988, with progeny bred, subsequently integrated into this herd as Rob became a partner in the Sinnamon family "Robenlea" Santa Gertrudis business. The cattle were initially run at "Torryburn" at Harlin (1977-1994), Dingyarra at Toogoolawah (1987-2002) and later at Peek-a-doo, Taroom (1998-2002). Notable cattle produced during this period included, the \$38,500 top price bull at the 1988 Annual Robenlea Sale – Riverina Jim Beam purchased by Murrumbo Santa Gertrudis Stud. Riverina Julia was also a top female selling privately to Dave Christensen for \$25,000 in 1987.

With the dissolution of the Sinnamon family partnership in 2002, Rob, Lorraine and Andrew Sinnamon moved to manage Yulgilbar Station at Baryulgil in North-Eastern NSW for the Baillieu Myer family. A small number of Santa Gertrudis females were moved to Yulgilbar at that time. A top quality Yulgilbar female (Yulgilbar Wine) was subsequently acquired by son Andrew who went on to win Reserve Senior Champion Cow at the 2005 Brisbane Royal as well as winning multiple interbreed championships throughout Northern River Shows. By 2012 Rob and Lorraine began progressively purchasing at auction, several Yulgilbar Stud females and began to build their stud cattle numbers once again.

Riverina was fortunate to be able to sell sale progeny through the Yulgilbar Annual Production Sale, with the stud's cattle regularly been amongst the top money earners at this annual event with Riverina bred bulls topping the 2014 Sale and 2nd top money at the 2018 (\$31,500) and 2021 (\$28,000) sales, respectively.

2017 saw Rob and Lorraine Sinnamon purchase the Kyogle district property "Mayfield" as a future base to accommodate the growing number of top-quality stud females. At this time Rob and Lorraine commenced trading their personal business interests as RL Pastoral Company. Rob Sinnamon has long advocated breeding "Industry Focused, Commercially Relevant Cattle" right back to his Sinnamon family partnership days at Taroom and the Brisbane Valley. The Riverina Santa Gertrudis herd has been bred based around this philosophy. Rob's past 20 years experience as General Manager at Yulgilbar Pastoral Company saw this adoption of breeding cattle based around this criteria, with exceptional success in validating the direction of his breeding objectives through wide success in steer and carcass competitions.

Rob has long applied these values to the breeding program at Riverina, underpinning his convictions and backing his judgement, by continually sourcing and purchasing at auction, (for full disclosure) base genetic's for Riverina from the best seedstock cattle he bred at Yulgilbar for the Baillieu Myer family.

## The Female Herd

In addition to the purchase of genetics, encompassing the most successful bloodlines from Yulgilbar, Riverina has acquired further top priced females from several Santa Gertrudis seed stock producers at auction including -

- Bullamakinka
- Diamond H
- Kemmis Creek
- Tookey Creek
- Tyndale
- Wellbach
- Burramurra
- Nangaringa
- Gylanda
- Jamar

In 2018 longtime client of the Sinnamon family, Clinton Wheatley from Western Australia also approached the growing business and subsequently entered a joint venture with Riverina on several elite females that Clinton has purchased with the resultant progeny thru Embryo transfer, IVF and natural production being sold in partnership. Successful show cow – Yulgilbar Mississippi M75 was purchased for \$30,000 in 2018.

Yulgilbar Nightingale (sired by the 2015 US National Champion Sire –777 Vegas 411) (P) sold privately for what is believed to be an Australian record for a Santa Gertrudis Female (\$50,000) in 2019.

2021 saw further elite purchases include the \$25,000 Mugona Magenta (P) and the \$20,000 Jamar Ribbon (P).

The Spring of 2021 saw the stud mate 150 stud females.

Embryo transfer and IVF continue to be utilized to multiply high quality genetics, including semen from Red Doc Never Better (USA) sold in the US for \$197,000 AUD; along with the acquisition of embryos from Glen Oaks star show female – Glen Oaks Kismet.

2022 saw the commencement of the strategic alliance of NIOA and Riverina Santa Gertrudis Studs, coming together to conduct an Annual Production Sale. This record breaking sale saw the then Australian record broken for the sale of Riverina Roland Sanchez (R88) (PP) (ET) for \$160,000 and the Riverina draft of bulls to average \$22,400.

# RIVERINA SANTA GERTRUDIS - STUD 1070

## Sire Power

The current Sire Battery has seen a significant investment in high performance sires.

- Yarrawonga Sparticus S316 (P) a grandson of Yarrawonga Corvette (P) purchased by NIOA with RL Pastoral buying a share. Current Australian Record Price sire sold for \$250,000 in 2022.
- NIOA Ronaldo R32 (AI) (P) sired by Rosevale Jackaroo (P) for \$55,000 in 2022
- Yulgilbar Las Vegas(P) sired by Yarrawonga Drover (P) for \$30,000
- Yulgilbar Major General (PP) by Cardona Nardoo (P) for \$31,000
- Yulgilbar Platinum (PP) sired by Cardona Patterson (P) for \$28,000
- Yulgilbar Queens Council (PP) sired by Moongana Karachi (P) for \$40,000 (Sire of the Future)
- Bullamakinka Rocky (P) sired by Bullamakinka Diplomat (P) for \$130,000 (Sire of the Future)
- Tookey Creek Northern N4 (P) sired by Waco Einstein (purchased as a calf at foot on his mother)
- Cardona Steamboat (P) S127 sired by Cardona Perfecto P55 (P) purchased for \$26,000 in 2019

Sale Cattle are available both privately and by Auction. March 2022 saw Rob and Lorraine complete a 20 year term with Yulgilbar Pastoral Company. The Sinnamon family are excited to again continue to grow and expand their private business interests, trading as RL Pastoral Company. In April 2002 Rob and Eliza Nioa (NIOA Santa Gertrudis Stud), along with Rob and Lorraine Sinnamon signed a strategic partnership agreement that see's the 2 operations agree to market together their seedstock moving forward. Separately Rob Sinnamon is now also providing advisory services to Nioa assisting in the ongoing growth of the Nioa Pastoral Company including their seedstock operations. Rob operates his advisory Services under RL Pastoral Advisory Pty Ltd and is available to consult.

## Cattle Selection and Breeding Philosophy

RL Pastoral Company advocates a balanced assessment criteria for cattle selection. This combines visual appraisal for structural soundness , temperament and overall conformation.

Fertility testing and soundness evaluation are considered essential tools. All bulls are soundness evaluated ,manually palpated for crush side semen collection by Ced Wise AB; and morphology tested at Rocky Repro. Rob believes semen and morphology testing should be about assisting the stud master ensuring all bulls offered for sale are fit and ready for work.

Herd Health Vaccinated for/with 7-1, 3 day sickness, vibrio, botulism, pestigard and tested negative for Pestivirus. Sale bulls are blooded.

Prudent consideration of raw measurement data including weight, daily weight gain, frame score, actual scrotal measurement, eye muscle area and fat scans.

Full support of the Classification system

Riverina Santa Gertrudis stud is registered with Santa Gertrudis Group breedplan (full group breedplan figures across multiple traits will be available on the supplementary sheet provided prior to sale).

Riverina Santa Gertrudis cattle have adopted the use of DNA testing including testing for Horn/ Poll, parent verification, and implementation of Single Step genomically enhanced EBV's along with verification of testing free of Pesti virus.

Rob Sinnamon believes that selection of extremes should always be approached with caution. He advocates that single trait selection for any characteristic is dangerous and lacks balance in any breeding program. The use of a combination of the many available "tools' for selection in the industry today is valuable and allows the discerning cattle person to be far more informed about livestock selections than ever before.

# RIVERINA SANTA GERTRUDIS SHOW RESULTS

## Riverina Santa Gertrudis Stud returns to the show ring

Rob and Lorraine and Andrew Sinnamon recently returned to the show ring under their own personal stud prefix - Riverina Santa Gertrudis Stud.

Following completing a 20-year term as General Manager of Yulgilbar Pastoral Company, the Sinnamon family are now trading as RL Pastoral Company. Their Riverina Santa Gertrudis Stud prefix was first registered 46 years ago by Rob in 1977.

## Grafton Show 2022

Won Junior Interbreed Bull Classic with Riverina Relegator R46(P) under lights, competing against fierce competition from British bred, European, and Tropical breeds under judge Lachlan Trustrum.

The next day in the Tropical breed ring this time under Roger Evans as judge, Riverina Roland Sanchez R88(PP)(ET) was successful in winning Reserve Junior Champion Bull.

## 2022 Casino Beef Week

Rounding out a successful couple of weeks, Riverina Ricardo R88 (PP) stepped up at the Casino Beef Week winning Junior Champion Bull and Supreme Exhibit all- breeds of the show.

## 2022 Brisbane Royal- Judge, Ben Noller

Heifer under 12 months – 2nd Riverina Sweet Seniorita S003(P)

Bull 20-22 months - 2nd Riverina Roland Sanchez

Bull 22-24 months - 3rd Riverina Relegator

Bull 22-24 months - 5th Riverina Ricardo

Pair of Bulls - 1st with Riverina Roland Sanchez and Riverina Relegator

Winner of Interbreed Herdsman Competition (NIOA and RL Pastoral)

Congratulations and thank you to Bailey Gardner and Sam Falls for all their efforts in presenting the RL and NIOA Show teams.

## Grafton Show 2023

Won Junior Interbreed Bull Classic with Riverina Stetson S96 (P) (ET)

Tropical classes Female 12-16 months -2nd Riverina Sparkle S9

# NIOA SANTA GERTRUDIS

NIOA Santa Gertrudis Stud was established by Rob and Eliza Nioa in 2014 following the purchase of Talgai Homestead at Allora in South East Queensland.

Rob and Eliza have a passion for striving for, and achieving “A High Standard of Excellence” for breeding the best possible seedstock and continually strive to source, breed and produce the best available cattle in the business.

With a focus on high-performance polled cattle that retain power, fertility and soundness that the Santa Gertrudis breed is renowned for; the stud set about building an Elite breeding herd. The herd under management from Shannon Gardner has grown to 110 of the best Stud females available in the business.

The broad extent of procuring cattle from a wide and diverse selection of Santa Gertrudis Stud Breeders, has seen blending of bloodlines not common in the breed with exceptional results. This has been achieved through extensive utilisation of Embryo transfer, IVF and artificial insemination programs, along with sourcing high performance sires for natural breeding. Females have been sourced from studs including: Bullamakinka, Goolagong, Glen Oaks, Talgai, Rosevale, Riverslea and Yulgilbar. The IVF program has been strongly supported by Gylanda and Rosevale Studs, providing performance orientated genetics to contribute to the depth of breeding now seen in the Stud. Semen has been selectively sourced and has been used as well as the best NIOA Bred Sires. An early “Key” foundation sire has been Wave Hill Jager J14 (PS). He was purchased at the 2015 Santa Central Sale for equal top price of \$67,500 after winning Grand Champion Santa Gertrudis Bull at the Brisbane Exhibition. Jager exceeded expectations as a dominant, prolific sire, passing on his do-ability and relaxed temperament to his progeny. Notable progeny have included NIOA Marksman M06 (P), who won Junior and Grand Champion Bull at Sydney Royal Show 2018. NIOA Marksman M06 (P) also won Sires Progeny Group (Wave Hill Jager) as well as Breeders Groups the same year. Included in Wave Hill Jager’s first crop of calves was NIOA Marksman M06 (P) who won Junior and Grand Champion Bull at Sydney Royal Show 2018. NIOA also won Sires Progeny Group (Wave Hill Jager) as well as Breeders Groups the same year.

With an outstanding show career behind him Wave Hill Jager is exceeding our expectations as a herd sire, most importantly Jager has passed on his do ability and relaxed temperament to his progeny.

Our breeding herd consists of a select group of females which we have carefully sourced from various studs including, Glen Oaks, Yulgilbar, Rosevale, Gylanda, Goolagong and Riverslea. Our breeding programs over the last three years have been successful in improving the quality of our genetics. The results of our AI, ET and IVF programs show in the quality of our herd and the direction the NIOA Stud is headed.

SHANNON & KAREN GARDNER (L)  
ELIZA & ROB NIOA (R)

## PRESS RELEASE

### NIOA-SINNAMON STRATEGIC PARTNERSHIP MAKES STRIDES FOR SANTAS

NIOA Pastoral Company has linked with one of Australia's leading stud cattle breeders as it looks to bolster its Santa Gertrudis herd on Queensland's Southern Downs.

NIOA Pastoral CEO Eliza Nioa has announced the appointment of Rob Sinnamon as Chief Advisor to the business responsible for leading genetic direction, sales and marketing at the historic Talgai Homestead near Allora.

And in a two-pronged strategy described as a "giant step forward" for Santa Gertrudis supporters, NIOA Pastoral and the Sinnamon family's Kyogle-based RL Pastoral will join forces, creating a strategic partnership to market the bloodline, starting with the newly named "NIOA RL Pastoral Production Sale" at Talgai this September.

RL Pastoral owns Riverina Santa Gertrudis which has ties to the Sinnamon family dating back to the 1970s and is famous for the #1070 prefix.

Rob Sinnamon is renowned within the cattle industry having been involved in the Santa Gertrudis breed for more than 50 years, breeding, showing and marketing top quality genetics, both stud and commercial. He and wife Lorraine recently stepped down from running the iconic Yulgilbar Station in the New South Wales Northern Rivers region where they spent two decades developing genetics and building a highly successful commercial beef cattle and farming operation.

NIOA Santa Gertrudis manager Shannon Gardner said the NIOA-RL Pastoral partnership was great news for the breed.

"This is a giant step forward," Mr Gardner said. "Rob Sinnamon is Mr Cattle Australia. He has built his reputation on producing cattle that are commercially focussed and industry relevant.

"The Riverina stud herd today carries genetics that were the best produced under Rob at Yulgilbar, while continuing to secure the best available Santa Gertrudis bloodlines available in the breed today.

"We look forward to working with Rob to promote and improve the breed."

Mr Sinnamon said there were a number of synergies with NIOA Pastoral and the two families shared a passion for producing top end Santa genetics.

"Under Shannon's guidance, NIOA Pastoral has developed an elite and diverse base of quality cattle utilising extensive embryo transfer and AI programs," he said.

"This is a win win for both operations. I am looking forward to working with Rob and Eliza and Shannon and the team at Talgai in assisting the business to produce fertile, high-performance cattle."

NIOA Pastoral set about acquiring some of the best genetics available to improve its herd when the Nioa family purchased Talgai in 2013.

# PRESS RELEASE

Their strategy yielded almost immediate results with multiple successes on the regional and metro show ring circuit including Grand Champion Bull at the 2018 and 2021 Sydney Royal Easter Show.

## **KEY POINTS:**

### What is the NIOA Pastoral RL Pastoral strategic partnership?

Through RL Pastoral Advisory, Rob Sinnamon will function as a Chief Advisor to NIOA Pastoral providing professional services to NIOA in the ongoing management and development of the Santa Gertrudis at Talgai Homestead.

Additionally, NIOA Pastoral and RL Pastoral have aligned sales and marketing strategies to grow their Santa Gertrudis businesses.

Both studs will continue to operate under their respective prefixes but work together to market their seedstock under Rob Sinnamon's guidance for both prefixes.

The two businesses will continue to be owned and operated separately.

### Why was it formed?

The strategic partnership was created for the mutual benefit of both Santa Gertrudis businesses with Riverina Santa Gertrudis stud and NIOA Santa Gertrudis stud working together to grow and promote their cattle operations.

### What is Rob Sinnamon's role with RL Pastoral?

Rob Sinnamon will continue to build RL Pastoral Company's agricultural interests, which encompasses Riverina Santa Gertrudis Stud owned with his wife Lorraine and son Andrew.

Under the Riverina prefix, the Sinnamon family run in partnership, the progeny of a select number of elite stud females purchased by long-time client Clinton Wheatley.

Rob also continues to be a director of the Casino Food Co-op and a councillor of the Santa Gertrudis Breeders' Association of Australia.

On March 31 2022, he completed a 20-year term as general manager with Yulgilbar Pastoral Company.

SOLD FOR \$20,000 TO KIRKWOOD

NIOA SOUTHPAW S1  
SOLD FOR \$18,000 TO ARABURY

# NIOA SHOW RESULTS

NIOA Pastoral Company breeds consistent quality Santa Gertrudis with easy going temperaments from a small very select herd. Our cattle are the newest generation of the nation's champions backed by solid blood lines from the most established Australian studs.

The results from the 2018 Sydney Royal Easter show, including Junior and Grand Champion Bull, Sire's Progeny and Breeder's Group, highlight the direction we are taking our stud and the quality we are committed to delivering. This was backed up again in 2021 with Junior and Grand Champion Bull, as well as Senior Bull and Senior Female, at Sydney Royal Easter Show.

Should you be interested in our progeny or semen packages listed below, please contact our Manager Shannon Gardner on 0418 797 050 or email [s.gardner@nioa.com.au](mailto:s.gardner@nioa.com.au)

# A BREEDPLAN Guide to Animal Selection

## TIP SHEET

The breeding decisions that a beef producer makes today will have a significant impact on the genetic progress and associated profitability of their herd into the future. Profitability of the herd will be influenced by the number of calves (fertility), the weight of the calves (growth) and the quality of the calves (carcase), less the cost of production. All of these components are influenced by genetics.

With the selection and purchase of an individual breeding animal being a long-term investment, it is important that beef producers take care to select the most profitable animals for their particular production system.

## BREEDPLAN BEST PRACTICE GUIDE TO ANIMAL SELECTION

BREEDPLAN recommends using selection indexes (where available) as part of a selection strategy which also includes other selection tools (e.g. EBVs and visual assessment). By initially ranking animals using an appropriate selection index, beef producers ensure balanced selection for traits important to their production system.

The BREEDPLAN best practice guide to animal selection is to:

1. Identify the selection index of most relevance to you.
2. Rank animals using the chosen selection index.
3. Consider the individual BREEDPLAN EBVs of importance.
4. Consider other traits of importance.

For more information on EBV's scan the QR code for a complete guide to Animal Selection by Breedplan.

### COMMENTS

Outstanding stud sire prospect here! Superb outlook coupled with balance, optimum expression of muscle while displaying reproductive functionality. Possibly the best bull yet produced at Nioa! Love the tropical skin type, ideal temperament and sound bone in this structurally correct bull. Exhibited at Allora Show to win all breeds Supreme Beef exhibit of the show! K269 has 9 recorded progeny (8 classified) 2 daughters bred at Rosevale prior to purchase and 3 daughters bred at Nioa (2 retained in the stud). 4 sons. Her son first bred at Rosevale has had 138 recorded progeny by Biarra, Raytek and Rosevale studs. 2 sons sold at last years Nioa RL sale for \$7,000 average and Texas. A share is retained by Nioa, with top quality semen collected with no further call on the bull. Ranks top 15% for carcass and top 20% for scrotal and % normal sperm.

### COMMENTS

Love the length of body and spring of rib in this sire prospect who displays a desirable tropical skin type and breed character. The expression of muscle along the spine and extending into the lower thigh highlights the commercial relevance of this bull. He is the first recorded progeny from Bulla makinka Q231(P), with a heifer recently weaned. Ranks top 15% for IMF and top 20% for Rump and Rib fat.

Now this is how to stack a pedigree! A like type son of the legendary Cardona Patterson. An all-round complete stud sire prospect with a fine silky skin type coupled with optimum breed character. Superbly correct, clean underline, good bone and a phenotype that exudes the WOW factor. Mother thru IVF is the highly successful show female - Glen Oaks Kismet, providing a genetic package that combines many greats of the Santa Gertrudis breed. Was shown to win All breeds champion in the Junior Bull Classic at this years Grafton show under strong competition. He ranks in the top 20% for 200 day growth and top 10% for Mature Cow weight. A semen share to be retained by the stud.

### COMMENTS

Really appreciate the overall balance and eye appeal of this bull! Clean underline coupled with length of body standing on correct structure. His dam has had 8 progeny (5 classified). 2 calves were produced at Rosevale prior to purchase. A daughter has been retained at Nioa. A herd bull sold privately, while a son sold to Pat McMahon for \$14,000 at last years sale. Tutanhamen sells this year with a bull recently weaned. Ranked in the top 20% for rump fat and top 30% for rib fat.

New blood. Don't overlook this bull late in the catalogue! Superbly correct, long bodied with a strong top line. Tight sheath with the outlook of a sire with the added eye appeal! G141 has had 7 calves (6 classified, 1 heifer not yet presented). A daughter retained in the stud with 3 sons selling to \$7000 to average \$5833 to Peter Hugh's, Pee Dee and the Hart family respectively. Ranks in the top 20% for rib and rump fat.
